Skills

Programming: C#, C++, Python PHP

Web Development: HTML, CSS, JavaScript

Database and Tools: SQLite, Git/GitHub

Languages: English, Hindi, Turkish, Urdu, Persian, Turkmen

Work Experience

April 2025 – Present: Control Room CCTV Operator, SSG Support Services Group, Barnsley Glasswork

- Monitor CCTV systems, log incidents, and respond to alarms across the site.
- Coordinate with security staff and manage gate access for deliveries and visitors.

March 2024 - April 2025: Security Officer, Total Security Services and Lodge Security, Barnsley and Meadowhall

- Maintained safe environments, monitored CCTV, assisted customers.
- Reported incidents and work with teams to resolve problems quickly.

Jun 2022 - March 2024: Hotel Receptionist and Night Duty Manager, Britannia Grand Hotel, Scarborough

- Managed overnight hotel operations and guest bookings using hotel management software.
- Supervised staff and resolved guest issues, demonstrating leadership and problem-solving skills.

Education

Sep 2024 – Present: BSc Computer Science, Sheffield Hallam University

Currently in Year 2, on track for a First Class (average mark: 74%).

- Year 1 Modules:
 - a) Databases and the Web – HTML, CSS, JavaScript, PHP, SQLite (81%)
 - b) Fundamentals of Mathematics and Computer Architectures – C++ (76%)
 - c) Programming for Computer Science – C# (74%)
 - d) Software Projects (67%)
- Year 2 modules: Advanced Programming (C++), Algorithms and Data Structures (C#), Professional Software Projects, Artificial Intelligence and Machine Learning (Python).

Access to Higher Education Diploma (Creative Digital Media) – Barnsley College (Sep 2023 – Jun 2024)

Overall Grade: Merit (60 credits, mix of Distinction/Merit/Pass)

Projects

1. Expression Evaluator (C#)

- Built a program to evaluate arithmetic and Boolean expressions using stacks.
- Implemented the Shunting Yard algorithm to convert infix expressions to postfix.

2. Hospital Management System: Designed and developed a web-based hospital management system with role-based access for staff, admin and patients.

- Technologies used: HTML, CSS, PHP, SQLite.
- Staff can create appointments, search for patients, view patients' details and respond to messages.
- Admin has full staff privileges and can register new staff accounts.
- Patients can register and log in, book and view appointments, and submit queries via the website.

3. Music Playlist Manager (C#):

- Built a console application implementing a singly linked list to manage songs in a playlist.
- Features include CSV file loading, song searching, sorting by artist and duration, playlist shuffling, and genre filtering.
- Demonstrates knowledge of data structures, algorithms, and C# programming

Achievements and Certificates

- Full UK Driving License
- Employee of the Year, Britannia Grand Hotel (2022)
- Emergency First Aid at Work
